(+91)8074263215 ◇ sarukollalakshmi2005@gmail.com

EDUCATION

B.Tech Computer Science and Engineering(Cyber Security)

September 2023 - Present

RGM CET, Nandyal

CGPA: 9.2

BIEAP-Maths, Physics, Chemistry

2021 - 2023

Overall Percentage: 96.5

PROFILE SUMMARY

Computer Science Engineering student specializing in Cyber Security with knowledge of Data Structures and Algorithms using Java. Skilled in Python, HTML, CSS, Flask, and database management with hands-on experience in web application development. Passionate about problem solving, backend development, and secure software systems.

PROJECTS

Phishing URL Detection System

Developed a machine learning-based phishing URL detection system to identify malicious and suspicious websites. Implemented feature extraction and classification techniques for threat analysis and detection. Applied cybersecurity concepts, data preprocessing, and model evaluation methods during development.

Hospital Queue Management System

Developed a web-based hospital queue management system with appointment booking, token generation, queue tracking, and admin management features using Flask and SQLite.

AI Resume Screener

Developed an AI-based resume screening system that analyzes uploaded resumes and generates job matching scores using resume parsing and keyword matching.

Rural AI Health Assistant(Currently Working)

Currently developing an AI-powered healthcare assistant for rural communities with features such as symptom analysis and health recommendations.

TECHNICAL STRENGTHS

Languages & Core Concepts

C, Python, Java, Data Structures & Algorithms, OOPS

Web Technologies

HTML, CSS, Javascript, React

Databases

SQL

Tools

Git, Github, VS code

EXTRA-CIRRICULAR

Participated in a 24-hour hackathon, working in a team to build a prototype and present a solution under time constraints.

Worked as a Team Lead for a technical paper presentation, coordinating team activities, research, and presentation delivery.
